Surempalem, Andhra Pradesh.

## Career Objective

Aspiring Cloud & DevOps Engineer with hands-on knowledge in AWS, GCP, Linux, Docker, Kubernetes, and automation tools, seeking to design, implement, and optimize secure, scalable, and automated cloud infrastructures while contributing to organizational growth.

## Education

### **Master of Computer Applications (MCA) – Pursuing**

Aditya University | 2024 – Present

- Advanced studies in software engineering, system analysis, and modern technologies.

### **Bachelor of Computer Applications (BCA)**

Adikavi Nannaya University | 2021 – 2024

- CGPA: 7.88

## Skills

### **Problem-solving, programming, communication, and teamwork**

- These are fundamental skills that are highly valued across many industries and roles.

### **Cloud Platforms: AWS, GCP**

- Basic knowledge of AWS (EC2, S3, IAM, VPC) and Google Cloud Platform services

## **DevOps Tools: Docker, Kubernetes, Terraform Docker, Kubernetes**

- Foundational understanding of containerization, orchestration, and infrastructure as code.

## **Version Control: Git, GitHub**

- Hands-on experience in code management and collaboration using Git and GitHub.

## **Programming & Scripting: Python, Html, CSS**

- Foundational knowledge in Python for scripting and HTML/CSS for web development

## **Interpersonal Skills**

### **Problem-Solving & Critical Thinking**

- Skilled at analyzing cloud infrastructure challenges and implementing innovative solutions for performance, security, and cost optimization.

### **Communication Skills**

- Skilled at conveying complex cloud concepts in clear, simple language to both technical and non-technical stakeholders.

### **Collaboration & Teamwork:**

- I am skilled at working with developers, product managers, and stakeholders to create user-centered and scalable cloud solutions.

### **Adaptability & Flexibility**

- Skilled at quickly adapting to new cloud technologies, tools, and methodologies in fast-paced environments.

### **Customer-Centric Mindset**

- Skilled at aligning cloud strategies with business goals and delivering solutions that improve client satisfaction

## Projects

### Online File Storage System Using Cloud

- The "Online File Storage System" is a simple web-based project built using HTML, CSS, and cloud storage services that allow users to upload and store files securely.
- Users can log in, upload files, and access them from anywhere using the cloud.

### Dostii Restaurant Website with Cloud Deployment

- The "Dostii Restaurant Website" is a responsive web project built using HTML and CSS, deployed on a cloud platform (AWS/Azure/GCP) to ensure high availability and scalability.
- Users can browse the restaurant's menu, services, and contact form hosted on the cloud with fast and reliable performance.

## Languages

English — Can communicate effectively in English fluently.

## Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief. All the projects and skills mentioned, including my knowledge of **cloud computing platforms and tools**, have been completed by me and are genuine.
